CYKEL NERVEN
BIKING FOR A WORLD WITHOUT MS

OVER 5 OF THE TOUGHEST TOUR DE FRANCE CLIMBS

Cykelnerven takes 300 riders on the toughest Tour de France climbs just weeks before the pros. This is for the best amateur cyclists in the world and raises money for a world without MS.

When the 2021 Tour kicks off you can sit back and tell your friends, “been there, done that”. Our international ride features cyclists from all over the world. You get a dedicated support team, English speaking coaches, personalised briefs. Not to mention you get to be part of a 300-strong Cykelnerven team. You'll all get your own Cykelnerven team jerseys, shorts and windbreaker – personalised with your company or sponsors' brands. With photo stops, promo videos and some incredible backdrops for selfies there's plenty of opportunity to get those perfect pictures. And we'll share the hell out of them too!

“ It's like riding the *Tour de France*. The Town Mayor set up the Tour Celebrations just for our *Cykelnerven* Team!”
